

Jade Texture Cutting

Change the 3 1/2" x WOF strip cutting to:

1 strip 3 1/2" x WOF; cut into (4) 3 1/2" x 4" B rectangles and **(16) 1" X squares.**

Animal Panel Length Issue

If you have recently purchased Cute & Cuddly fabric or a kit, please be aware that there may be some differences in the size of the panel from one printing of the fabric to another.

Cut your panel as instructed here:

- First, cut to 32 1/2" wide, keeping any coral check that may be in the seam allowance even on each side.
- Measure the inside white area of the panel from top to bottom.
- If it is at least 40" long, cut it to 40 1/2", keeping the coral check that will be in the seam allowance even on each end. Continue to cut all remaining fabrics as directed in the pattern.
- If it is NOT 40" long, trim it 1/4" into the coral check at the top and bottom. An exact length isn't important. It will be trimmed to size after the framing is added.

Continue to cut all remaining fabrics as directed in the pattern **except:**

- Jade Texture Cutting: change the 4 strips 1 3/4" x WOF cutting to: 2 strips 1 3/4" x WOF; trim to 42" for panel framing.
Add: 2 strips 2 1/2" x WOF; trim to 36 1/2" for panel framing.
- Make the following changes to the instructions:

Completing the Quilt

Step 1: Stitch the 1 1/4" x 40 1/2" coral strips to the sides of the panel. Press seams toward the strips. **Trim strip ends even at the top and bottom.** Sew the 1 1/4" x 34" strips to the top and bottom. Press seams toward the strips.

Step 2: Sew the 1 3/4" x 42" jade strips to the sides of the panel. Press seams toward the strips. **Trim strip ends even at the top and bottom.** Sew the 2 1/2" x 36 1/2" strips to the top and bottom. Press seams toward the strips. **Trim the framed panel to 44 1/2" long, removing the same amount from the top and bottom.**
