

The dinosaur panel for this quilt was changed when the fabric was printed to add more open white space at the top and bottom of the rows of dinosaurs. This made each dinosaur section smaller than it was originally. We have changed our pattern to work with the new size of the dinosaurs.

Materials & Cutting

Dinosaurs panel

Change size to cut each rectangle to: 10 1/2" wide x 7 1/2" tall.

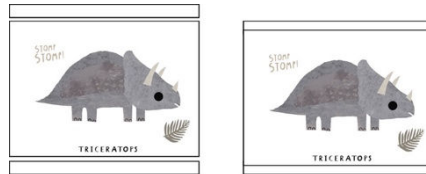

White Solid

Add: 5 strips 3/4" x WOF; cut into (20) 3/4" x 10 1/2" strips.

Piecing the Blocks

Add a new step after step 2:

Sew 3/4" x 10 1/2" white strips to the top and bottom of each panel rectangle to make (10) 10 1/2"-wide x 8"-tall panel units. Press seams toward the strips.

Panel Unit — Make 10

Continue with the remaining steps in the pattern.
